School Type

All

Average Exam Score by Teacher Quality

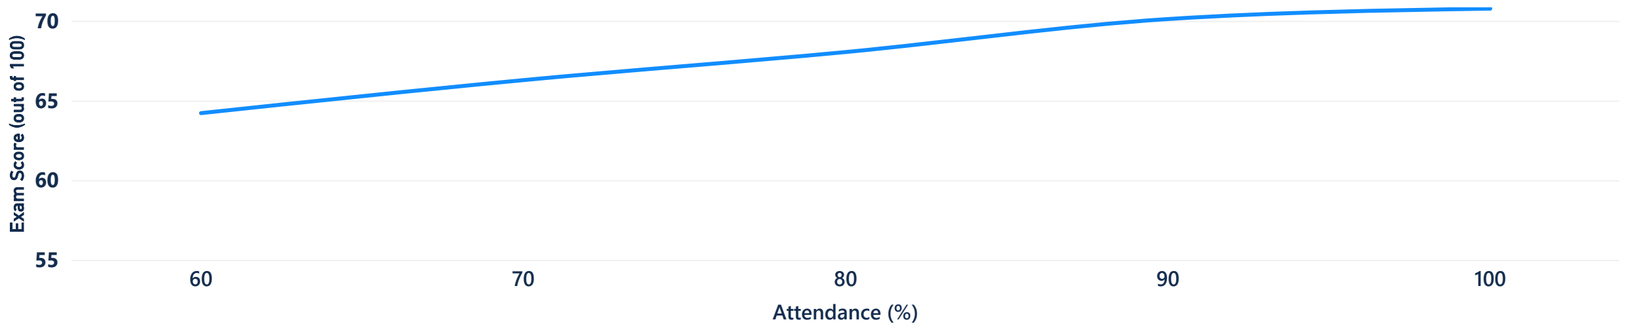

Average Exam Score by School Type

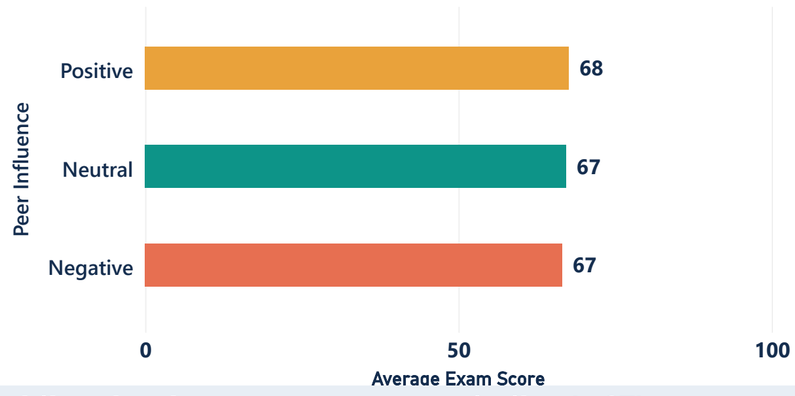

Average Exam Score by Tutoring Sessions

Attendance vs. Exam Score

Average Exam Score by Peer Influence

Overall Dataset Insight | Higher attendance and more tutoring generally align with higher exam scores, while school-type averages are similar (~67).

STUDY HABITS & LEARNING RESOURCES

Student Performance & Engagement Analytics

03/05

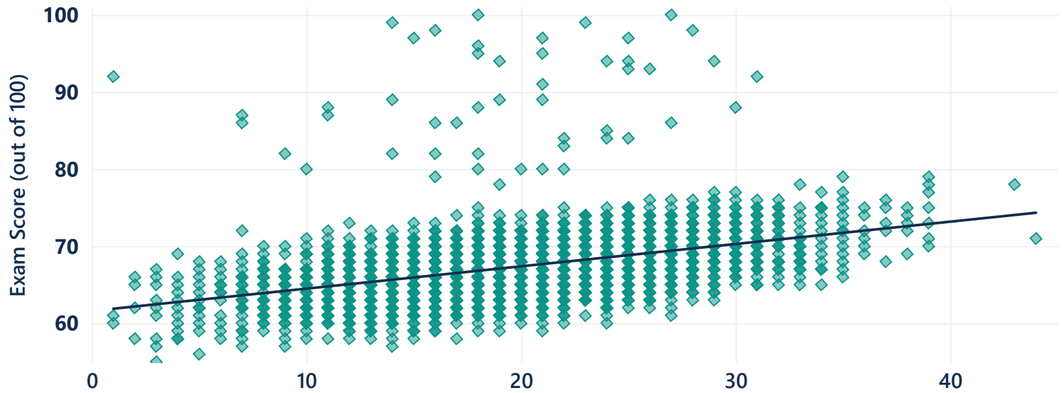

LEARNING FACTORS | PERFORMANCE

Average Study Hours	Average Exam Score	Average Previous Score
19.98	67.24	75.07

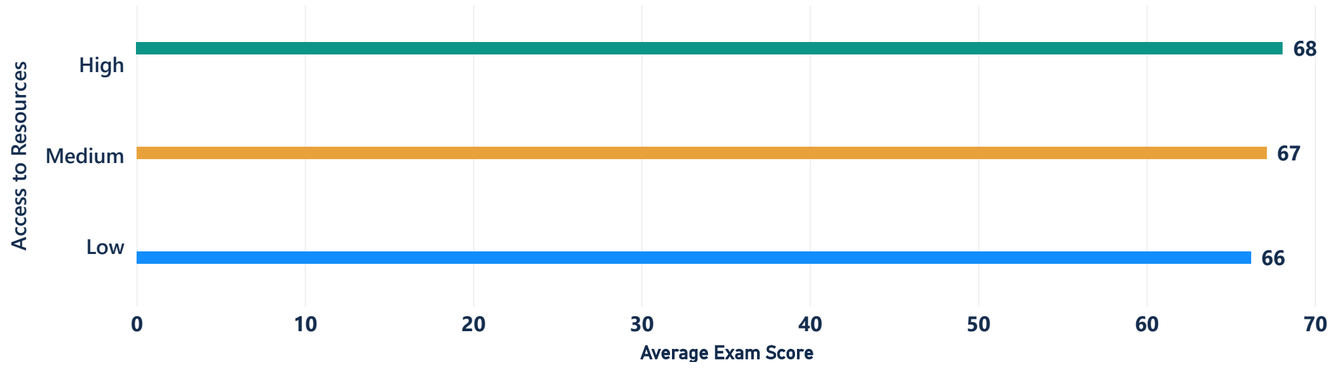

School Type: All

Gender: All

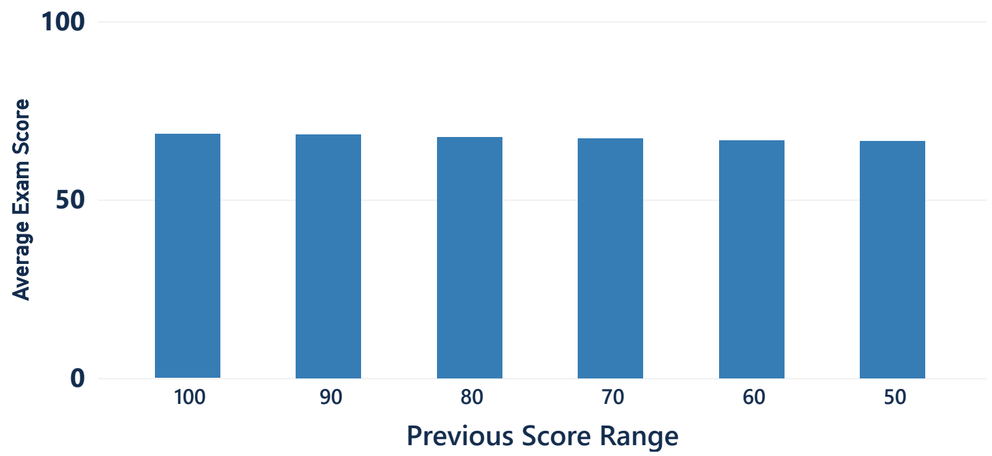

Study Hours vs. Exam Score

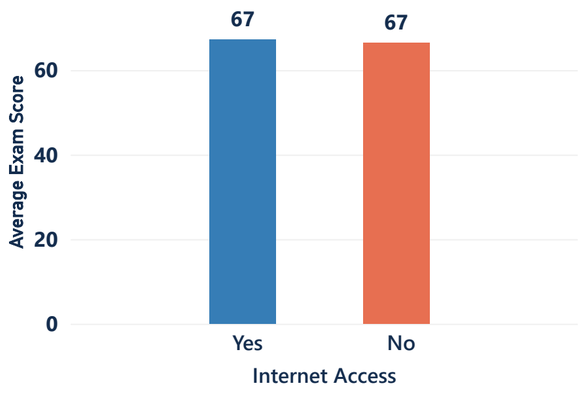

Average Exam Score by Resource Access

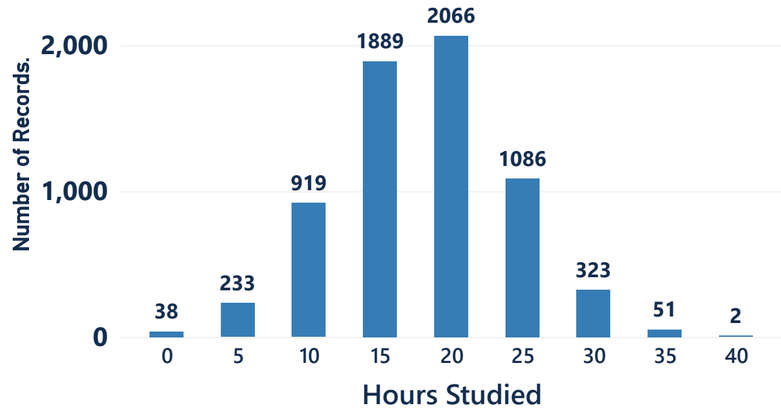

Average Exam Score by Previous Score Range

Average Exam Score by Internet Access

Distribution of Weekly Study Hours

Overall Dataset Insight | Higher weekly study hours are associated with higher exam scores, while resource access shows a smaller difference in average performance.

STUDENT WELLBEING & ENGAGEMENT

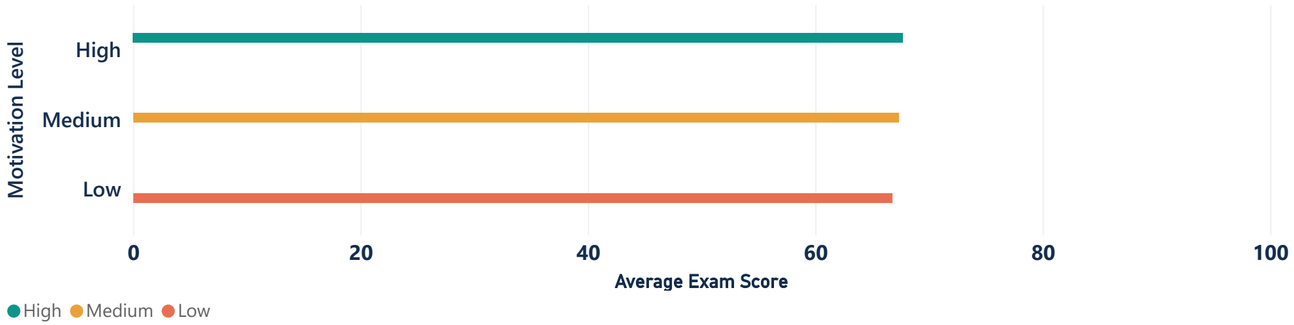

Student Performance & Engagement Analytics

04/05

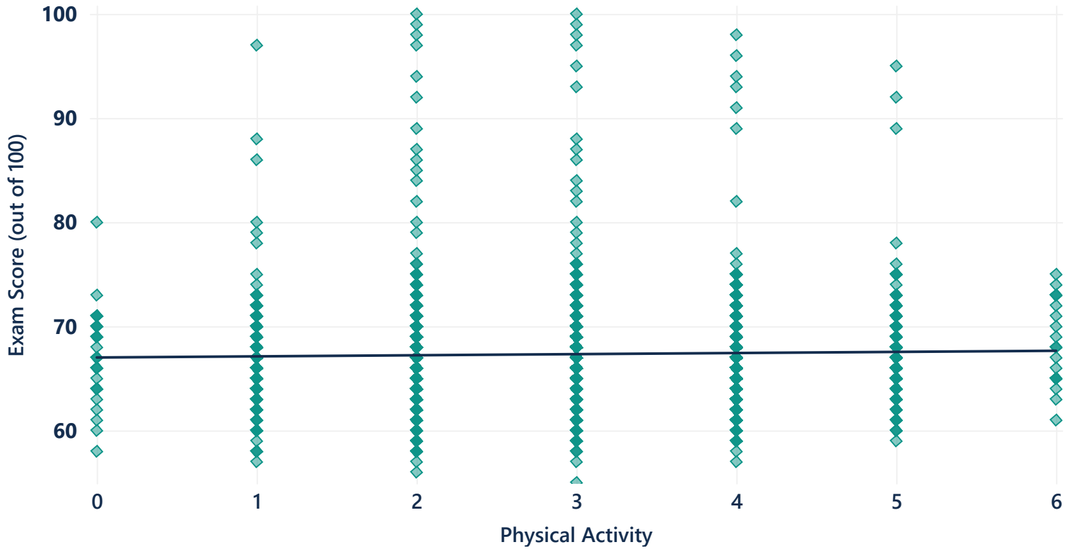

WELLBEING & ENGAGEMENT | PERFORMANCE

Average Sleep Hours	Average Physical Activity	Average Exam Score	School Type	Gender
7.03	2.97	67.24	All	All

Average Exam Score by Motivation Level

Physical Activity vs. Exam Score

Average Exam Score by Sleep Hours

Exam Performance by Extracurricular Participation & Learning Disability Status

Extracurricular_Activities	No	Yes
No	67.05	65.99
Yes	67.55	66.47

Overall Dataset Insight | Extracurricular participation is associated with approximately 0.5 points higher average exam scores across both learning-disability groups.

FAMILY BACKGROUND & DEMOGRAPHICS

Student Performance & Engagement Analytics

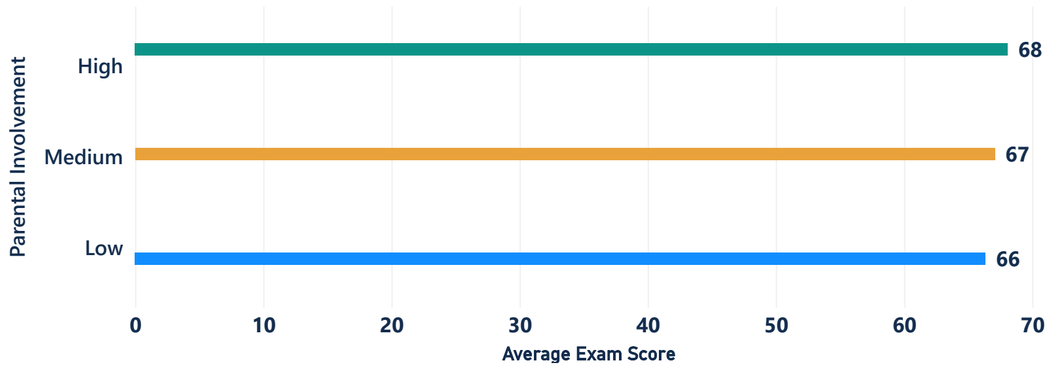

FAMILY BACKGROUND | ACADEMIC PERFORMANCE

Total Records	Average Exam Score	Lower Score Share(<65)
6607	67.24	21.98%

School Type: All

Gender: All

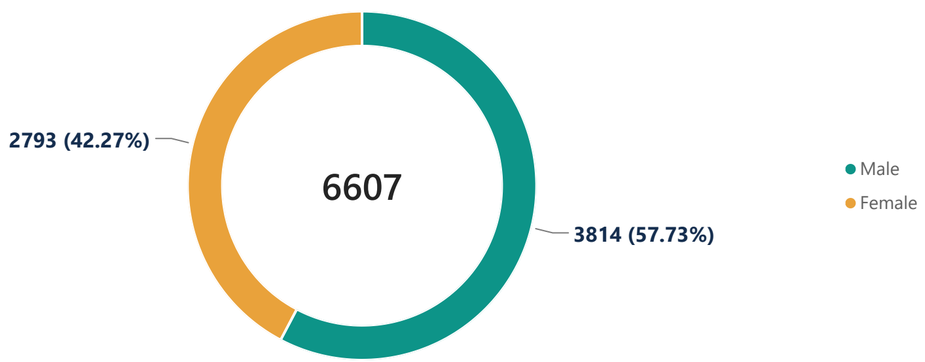

Average Exam Score by Parental Involvement

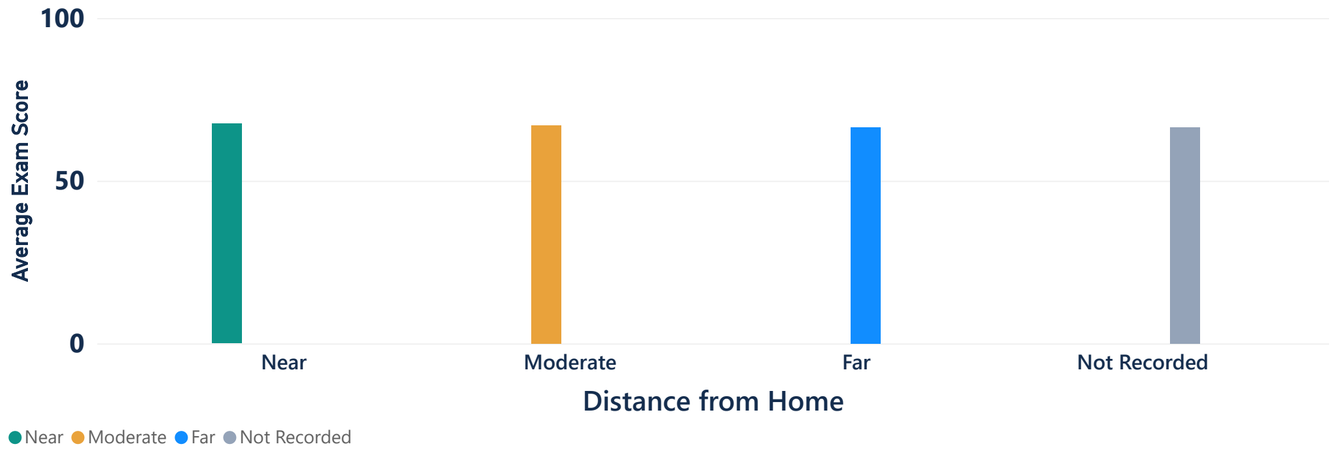

Average Exam Score by Parental Education & Family Income

Parental_Education_Level	High	Low	Medium
College	68.02	66.85	67.46
High School	67.43	66.50	67.03
Not Recorded	68.07	66.33	67.43
Postgraduate	68.60	67.75	67.89

Student Distribution by Gender

Average Exam Score by Distance from Home

Overall Dataset Insight | Higher parental involvement is associated with higher average exam scores (High: ~68, Medium: ~67, Low: ~66).

SCHOOL PERFORMANCE | EXECUTIVE DASHBOARD

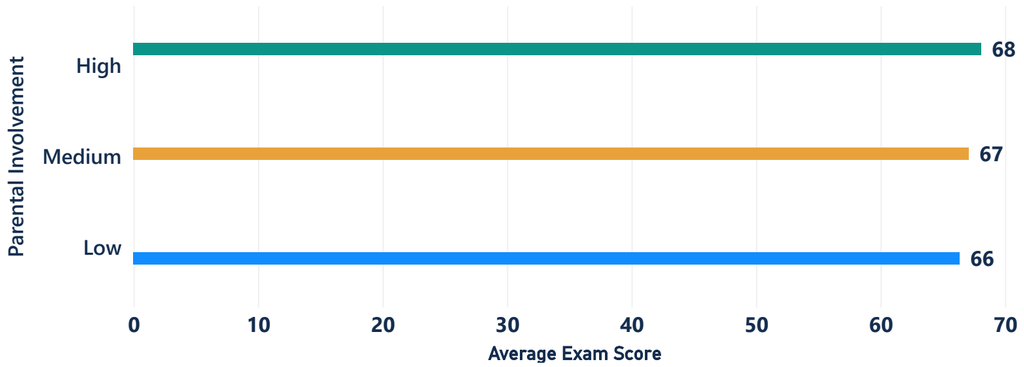

Student Performance & Engagement Analytics

Total Records	Average Exam Score	Average Attendence	Lower Score Share(<65)
6607	67.24	79.98%	21.98%

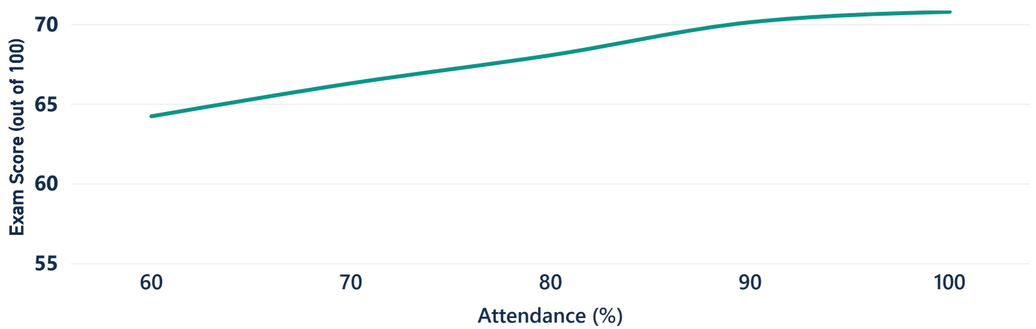

School Type: All

Gender: All

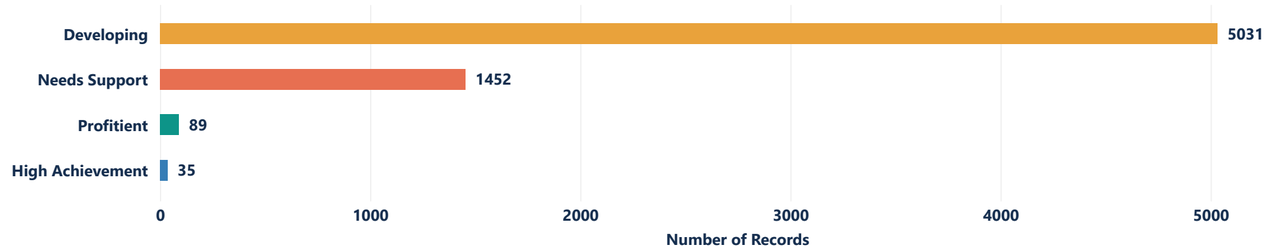

Average Exam Score by Parental Involvement

Average Exam Score by Attendance Range.

Student Distribution by Performance Band

Performance Distribution by Weekly Study Hours

- **Academic support:** Prioritize reviewing the 21.98% of records below the analyst-defined 65-point threshold.
- **Attendance and study habits:** Explore the observed relationships with exam performance to identify where additional support may be useful.
- **Family engagement:** Consider targeted parent-engagement initiatives and evaluate their effectiveness using real school data.
